

桃園市112學年度市界盃英語演講比賽題目

序號	題目
1	<p>My perspective on integrating AI into classrooms.</p> <p>Instructions</p> <p>Artificial Intelligence (AI) refers to the development of computer systems capable of performing tasks that typically require human intelligence, such as learning, problem-solving, and decision-making.</p> <p>The rapid development of Artificial Intelligence has ushered in a new era of possibilities in various fields, including education. As students, exploring the potential usage of AI in the classroom, explain how it can be implemented and evaluate its pros and cons.</p>
2	<p>How might improving global access to immunization contribute to sustainable development?</p> <p>Instructions</p> <p>The 17 Sustainable Development Goals (SDGs) proposed within the United Nations 2030 Agenda for Sustainable Development establish a “shared blueprint” for economic growth, social well-being, and environmental protection, with the intention of achieving “peace and prosperity for people and the planet, now and into the future”. In the context of the SDGs, explore the importance of accessible immunization, explain how it can contribute to sustainable development?</p>
3	<p>If you could create a new, mandatory course for your school, what would it be?</p> <p>Instructions</p> <p>The diverse array of high school courses available today caters to individual interests, offering students the opportunity to explore a wide range of subjects and tailor their education to their unique passions and future aspirations. Reflect on your own passions and envision the creation of a new, innovative course that aligns with emerging career trends, providing knowledge crucial for success in your future career.</p>
